

Allies in Autism Education (AAE) Team

The AAE team is a team of professionals in the Manitowoc Public School District who meet every other month to discuss best practices, needs of students in the district and brainstorm ideas to improve academic and functional outcomes for students with autism in the school setting.

AAE Team VISION: Effectively collaborate to ensure there are sustainable systems in place to help teachers and all students learn at high levels.

Team members can help with observations and problem-solve strategies/ideas you can implement in your classroom to help overcome learning barriers. The Allies in Autism Education Team members can also provide coaching and on-going support as needed to ensure evidenced-based practices are being used with fidelity. Topics of support include, but are not limited to: managing student behaviors, increasing student independence and integrating supports in the general education setting. Please feel free to contact any of the team members below with questions!
